IT Support Engineer | Service Desk & VDI Support | Immediate Joiner

SUMMARY

IT Support Engineer with 3+ years of L1/L2 experience across Windows, macOS, and VDI environments (Citrix, Windows App, Parallels Client) for banking and other enterprise clients. Skilled in Active Directory, MFA (Windows Hello, Microsoft Authenticator), Microsoft O365, VPN application support, with hands-on ITIL/ITSM incident management. Core strengths: structured troubleshooting, clear documentation, and SLA-driven coordination with global teams, across multiple time-zones.

WORK EXPERIENCE

NTT Data Inc.

ServiceDesk Associate

Noida, India

Mar 2025 - Jul 2026

Supporting enterprise accounts - US Bank and Allied Universal Services

- Deliver L1/L2 technical support via **ServiceNow**, **Freshservice**, and **Salesforce CMS (SFDC)**, resolving hardware, software, and connectivity issues for enterprise and banking end users within SLA targets.
- Support **VDI platforms (Citrix, Windows App, Parallels)** and troubleshoot Hogan **mainframe** application access, ensuring uninterrupted access to critical business systems.
- Administered **Active Directory** and distribution lists - user provisioning, password resets, permissions allocation and managed **MFA** via **Windows Hello** and **Microsoft Authenticator**.
- Provide remote support using **LogMeIn** and **Ivanti Neurons**, troubleshoot **Ivanti Secure VPN**, Cisco VoIP softphones, and AWS Connect.
- Triage and escalate P1/P2/P3 **DevSecOps** deployment issues to the relevant engineering teams, reducing downtime.
- Set up and troubleshoot **MICR/RICOH printers** and teller scanners, support proprietary tools (**Entrust Identity Guard**) and manage **Java CA certificates** and system path variables using admin rights.

Teleperformance

Technical Support Executive

Jaipur, India

Oct 2023 - Feb 2025

Project: GEN Digital (Norton, Avast, AVG, Avira)

- Delivered L1/L2 cybersecurity and endpoint technical support across **Windows** and **MacOS** for global antivirus brands (**Norton, Avast, AVG, Avira**), resolving software and connectivity issues via remote desktop support.
- Supported European and South American customers in **English, German, Spanish, Portuguese, French, Czech, Japanese** via **GEN Translate** using **Salesforce CMS (SFDC)** for ticketing and issue documentation.
- Led the transition from email-based to live chat support in native languages using **GenAI translation tools**, improving response times.

AKQA

Associate Software Engineer

Gurugram, India

Jul 2022 - Jan 2023

Project: IWC Schaffhausen

- Built and maintained frontend components for IWC Schaffhausen's site in **Adobe AEM 6.5**, resolving **WCAG accessibility** issues (including **ARIA labels**) to improve usability for screen-reader users.
